

An Exploratory Analysis of Causes of Death Globally

Odomero Omokahfe & Nomin Batbayer

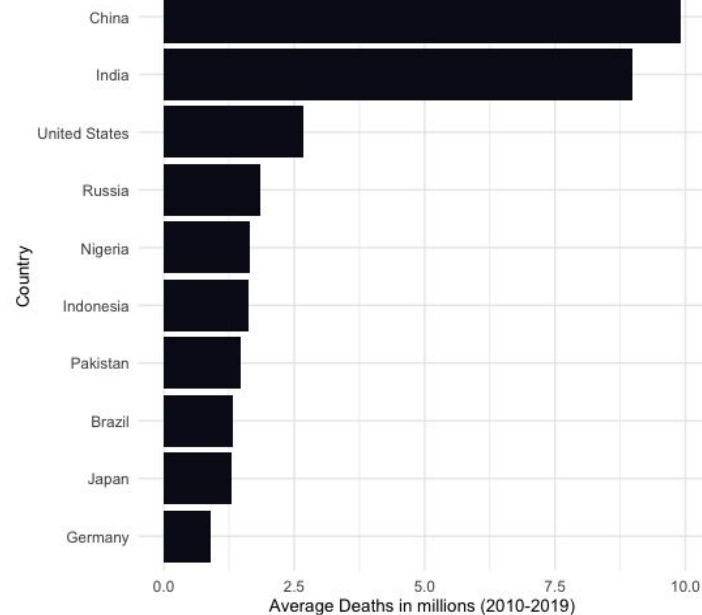

Introduction

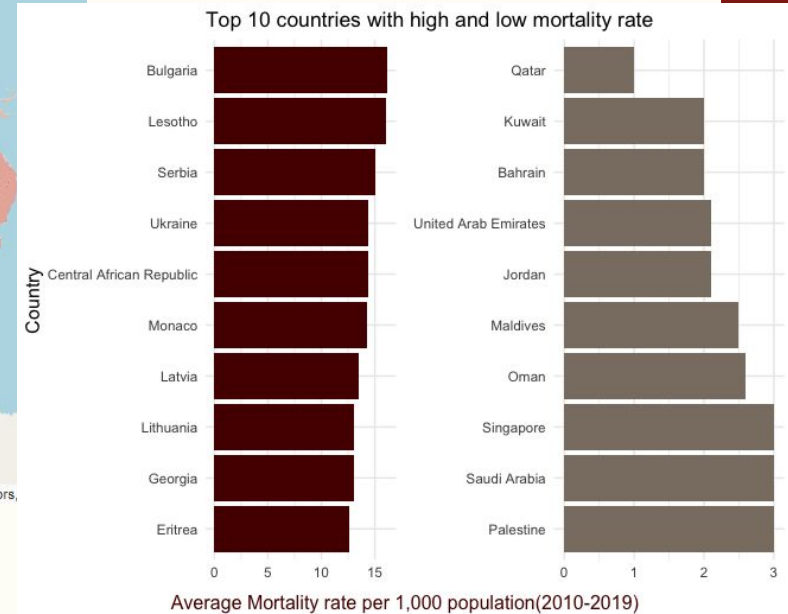

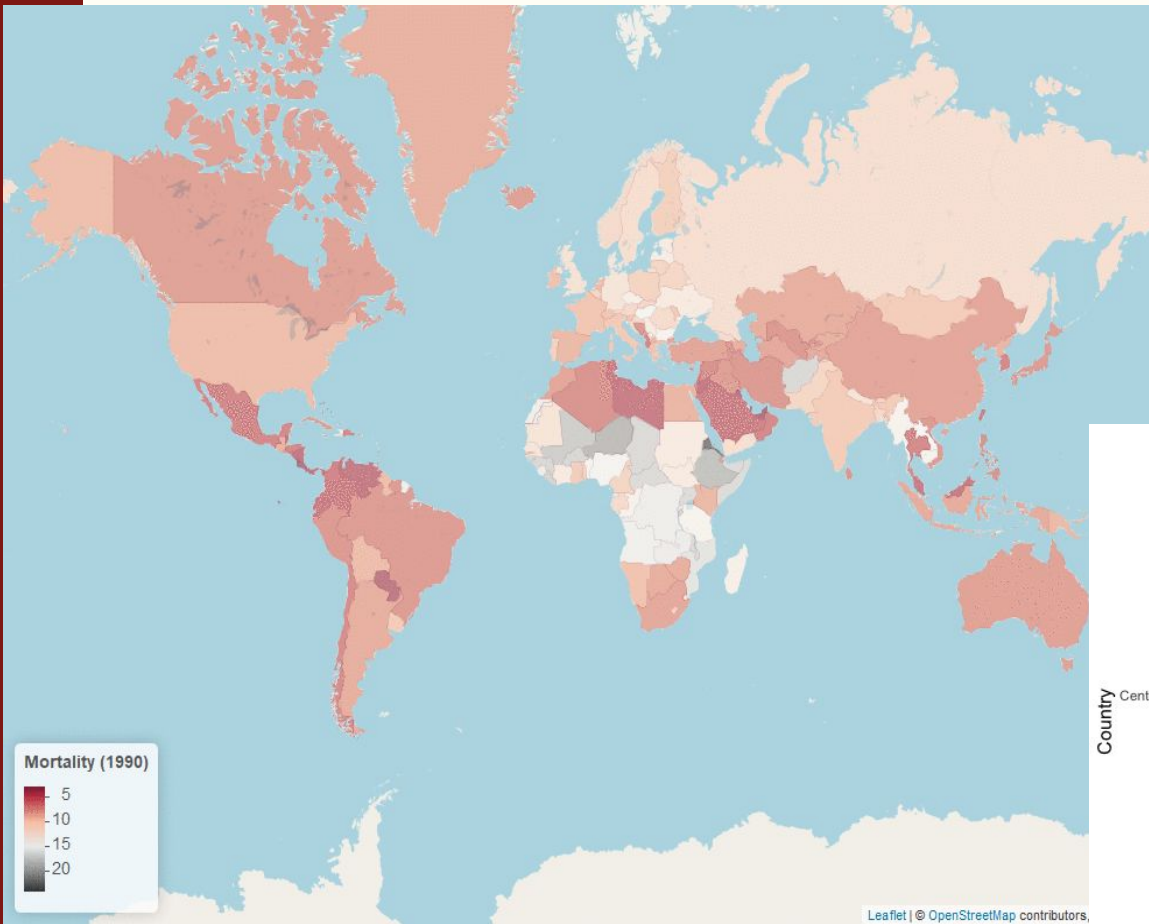

- ❖ There's only one certain truth in the world
 - Death
- ❖ Let's explore the main causes of death around the world in prior years.
- ❖ We'll also analyse the relationship between mortality rate and gdp per capita, happiness index, alcohol use and drug use.
- ❖ Causes of death data was sourced from Institute for Health Metrics and Evaluation while other data can be found Our World in Data

Number of deaths and Death rate

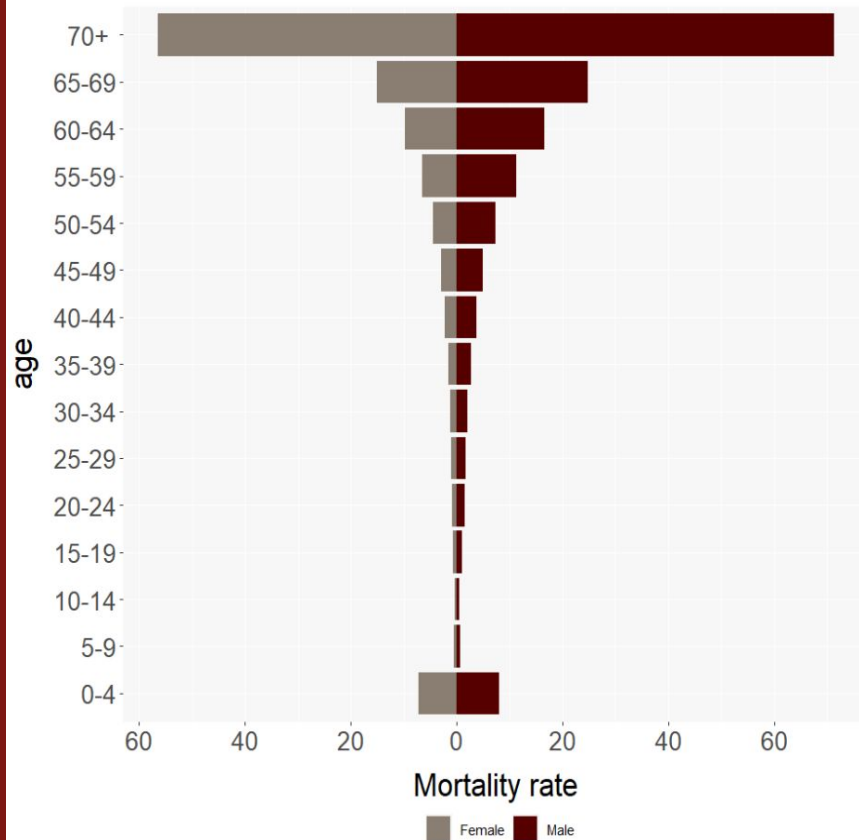

Top 10 countries with high number of deaths

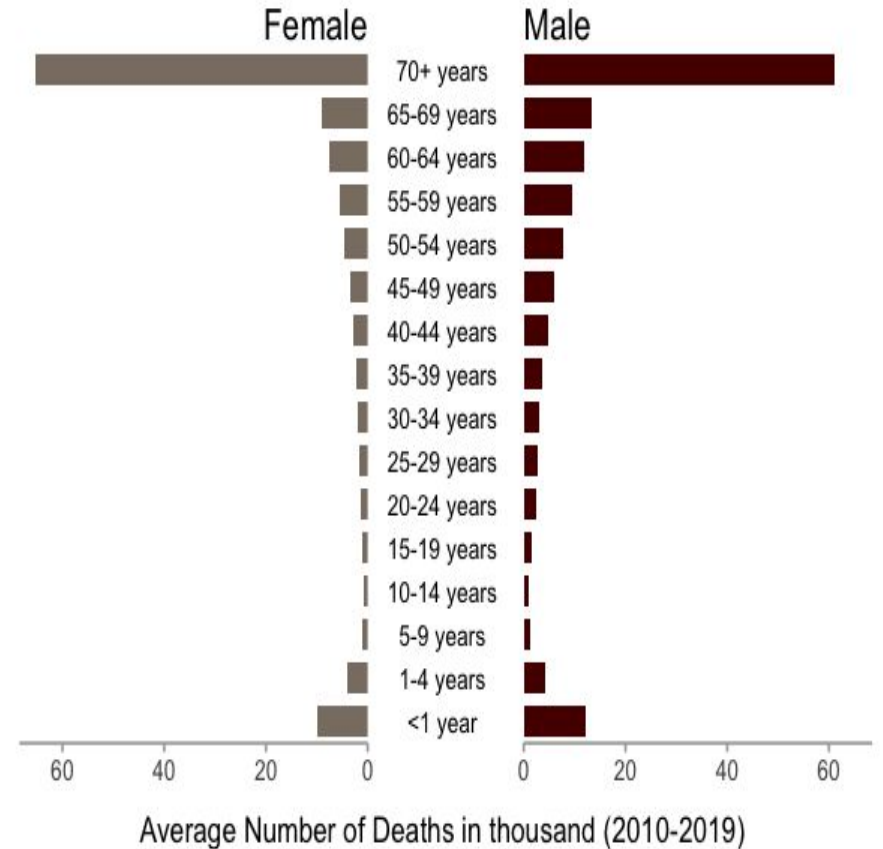

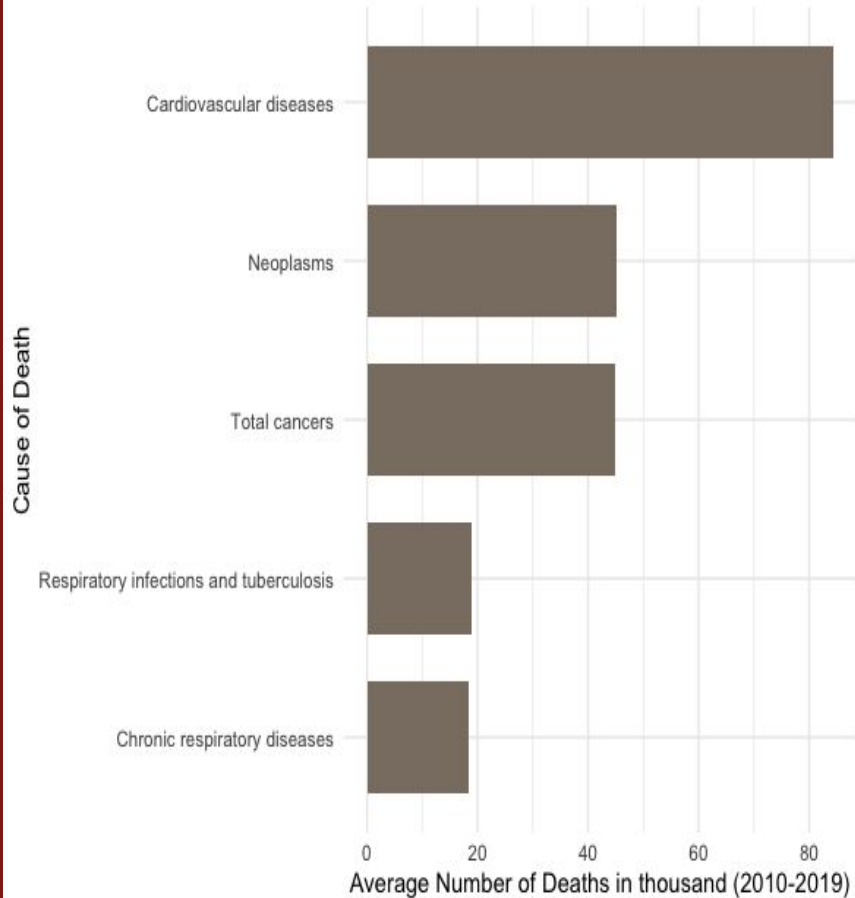

Mortality rate by gender and age (2018)

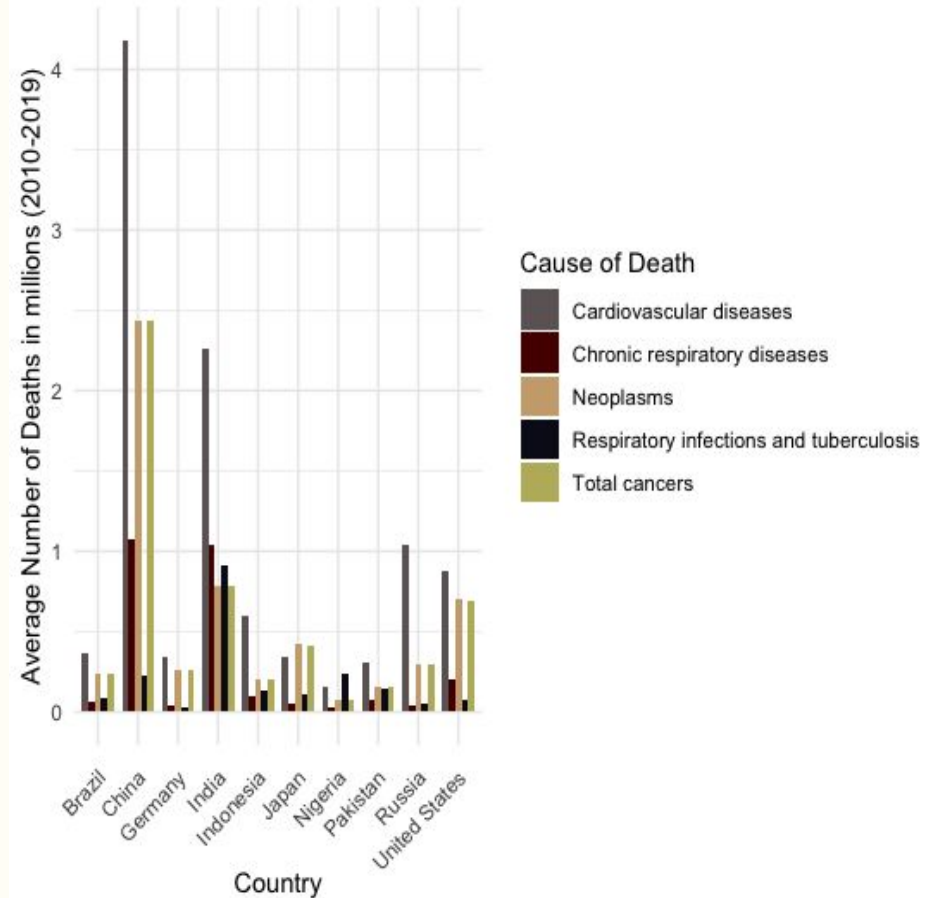

Death Analysis by Gender and Age Group
